

Liang (Leon) Dong

November 2023

Address: Department of Electrical and Computer Engineering
Baylor University
One Bear Place #97356
Waco, TX 76798-7356, USA
Phone: +1-254-710-4589 Fax: +1-254-710-3010
Email: liang_dong@baylor.edu liangdng@gmail.com
Web: <https://www.profdong.com>

Appointments

2011–present Baylor University
Associate Professor of Electrical and Computer Engineering
Summer 2015 Stanford University
Visiting Scholar of Electrical Engineering
Summer 2007-09 Shanghai Jiao Tong University
Visiting Professor of Microelectronics
2004–2011 Western Michigan University
Assistant/Associate Professor of Electrical and Computer Engineering

Education

2004 Post-Doctoral in Electrical Engineering University of Notre Dame
2002 Ph.D. in Electrical and Computer Engineering University of Texas at Austin
1998 M.S. in Electrical and Computer Engineering University of Texas at Austin
1996 B.S. in Applied Physics and B.S. in Computer Engineering Shanghai Jiao Tong University

Research Interests

Signal Processing and Communications
Cyber-Physical System and Security
Artificial Intelligence/Machine Learning Applications

Honors and Awards

2023 Active Learning Fellow Baylor University
2022 Data Scholar Award Baylor University
2015, 2022 KEEN Faculty Innovators Program Kern Entrepreneurial Education Network
2015 University Research Committee Award Baylor University
2013 ECS Research Initiation Award Baylor University
2011 Faculty Scholars Award Western Michigan University
2008 Research Development Award Western Michigan University
2008 Faculty Research & Creative Activities Award Western Michigan University
1999 Graduate Fellowship University of Texas at Austin
1994 Hua-Xin Scholarship Shanghai Jiao Tong University

Membership of Associations

Senior Member Institute of Electrical and Electronics Engineers (IEEE)
Member Institute of Electronics, Information and Communication Engineers (IEICE)
Member American Physical Society (APS)
Member American Society for Engineering Education (ASEE)
Member Sigma Xi, The Scientific Research Society

Funded Research

1. “Collaborative Research: SCH: Navigating Molecular Spaces: An Insightful and Trustworthy AI Approach for Structure Leads in Highly Specific PET Imaging Probe Development,” Sponsor: National Science Foundation (NSF), P.I., \$480,000 Pending
2. “Deciphering Imbalanced Learning-Hardness in Data Science,” Sponsor: National Science Foundation (NSF), co-P.I., \$947,311 Pending
3. “SCH: Reproducible High-Dimensional Mislabeled Learning and Neuromorphic Computing Algorithm Design,” Sponsor: National Science Foundation (NSF) co-P.I., \$900,000 Pending
4. “AI-Enhanced Multisensory Drone Detection, Recognition, and Tracking: A New Frontier in Border Security,” Sponsor: North Atlantic Treaty Organization, P.I., \$350,000 Pending
5. “AI Enabled All Digital Array,” Sponsor: National Reconnaissance Office (NRO), co-P.I., \$500,000 Pending
6. “Spectrum Management with Adaptive and Reconfigurable Technologies (SMART) Hub,” Sponsor: Army Research Laboratory (ARL), co-P.I., Performing organization: Baylor University, October 25, 2023–, \$5M
7. “AI Vision for Industrial Inspection and Automation: Irregularity Inspection and Detection of Falling Objects on a Drilling Rig,” Sponsor: ExxonMobil, co-P.I., Performing organization: Baylor University, November 1, 2022–October 31, 2023, \$164,629
8. “IUCRC Planning Grant Baylor University: Center for Standards and Ethics in Artificial Intelligence (CSEAI),” Sponsor: National Science Foundation (NSF), co-P.I., Performing organization: Baylor University, February 15, 2022–July 31, 2023, \$19,996
9. “An ‘Entrepreneurial Leap’ Module for Engineering Courses Digital Signal Processing and Deep Learning,” Sponsor: Kern Entrepreneurial Education Network, The Kern Family Foundation, P.I., Performing organization: Baylor University, December 15, 2022–December 14, 2023, \$2,000
10. “Deep Learning and Its Applications to Signal Processing,” Sponsor: Intel, P.I., Performing organization: Baylor University, September 1, 2018–August 31, 2019, \$20,000
11. “In-flight Wireless Multimedia Delivery System,” Sponsor: L3Harris Technologies (formerly L-3 Communications), P.I., Performing organization: Baylor University, January 1, 2015–December 31, 2017, \$340,000
12. “Data Collection and Analysis for Connected Health,” Baylor University Research Committee Award, P.I., Performing organization: Baylor University, December 15, 2015–May 31, 2016, \$7,500
13. “Onboard Wireless High-definition Content Delivery System,” Sponsor: L3Harris Technologies (formerly L-3 Communications), P.I., Performing organization: Baylor University, October 21, 2012–December 31, 2014, \$300,000
14. “Noninvasive Brain-computer Interface based on Electroencephalography,” Baylor Faculty Research Grant, P.I., Performing organization: Baylor University, June 1, 2013–May 31, 2014, \$25,000
15. “Development of an Intelligent Vehicle Health Management System for Light Tactical Vehicles,” Sponsor: U.S. Army Tank-Automotive Research, Development and Engineering Center (TARDEC), co-P.I., Performing organization: Western Michigan University, May 2008–December 2010, \$353,684
16. “Development of Smart Vehicles Laboratory for Future Engineering Workforce,” Sponsor: DENSO North America Foundation, P.I., Performing organization: Western Michigan University, July 2009–June 2010, \$20,000

17. “Cooperative Localization and Communication,” Sponsor: Michigan Space Grant Consortium – NASA, P.I., Performing organization: Western Michigan University, June 2008–May 2009, \$5,000 (plus \$5,000 matching)
18. “Application of Unmanned Aerial Vehicles (UAVs) to Traffic and Emergency Surveillance: Demonstration and System Design,” Sponsor: Michigan Department of Transportation, co-P.I., Performing organization: Western Michigan University, September 2005–August 2006, \$110,663

Professional Activities

- Conference Technical Program Committee Member
 - The Southwest Data Science Conference at Baylor University (2022)
 - IEEE Global Conference on Signal & Information Processing (GlobalSIP) (2015–2017)
 - IEEE Int. Conference on E-health Networking, Application and Services (HealthCom) (2015, 2023)
 - Texas Symposium on Wireless & Microwave Circuits & Systems (2012–2022)
- Conference Session Chair
 - IEEE Wireless Communications and Networking Conference (WCNC) (2013, 2018)
 - IEEE International Conference on Distributed Computing in Sensor Systems (DCOSS) (2017)
 - IEEE Global Conference on Signal & Information Processing (GlobalSIP) (2016)
- Professional Society Executive Board Member
 - IEEE West Michigan Section (2006–2011)
 - ASEE North Central Section (2007–2008)
- Academic Journal Editor
 - Wireless Communications and Mobile Computing (2018–present)
- Panelist and Reviewer
 - National Science Foundation (NSF) Panel (2016, 2020, 2021, 2023)
 - IEEE Transactions on Signal Processing, IEEE Journal of Selected Areas in Communications, IEEE Transactions on Wireless Communications, IEEE Transactions on Communications, IEEE Transactions on Vehicular Technology, IEEE Transactions on Green Communications and Networking, IEEE Transactions on Cognitive Communications and Networking, IEEE Communications Letters, IEEE Transactions on Smart Grid, IEEE Transactions on Industrial Informatics, IET Communications, Wiley Wireless Communications and Mobile Computing.
- University Committee Member
 - Baylor Centennial Faculty Development Review Committee (2016–present)
 - ECE Department Systems Committee (2018–present)
 - School of Engineering and Computer Science Systems Committee (2018–2020)
 - ECE Department Graduate Committee (2012–present)

Courses Taught

- At Baylor University:
- EGR 1302: Introduction to Engineering Analysis
 - ELC 2330: Electronic Circuit Theory
 - ELC 4350: Principles of Communication
 - ELC 4351: Digital Signal Processing
 - ELC 4438: Embedded Systems Design
 - EGR 4390: Engineering Design II
 - ELC 4396: Deep Learning
 - ELC 5356: Statistical and Adaptive Signal Processing
 - ELC 5396-02: Digital Communications
 - ELC 5396-04: Wireless Communications
 - ELC 5396-06: Deep Learning
- At Western Michigan Univ:
- ECE 1000: Fundamentals of Circuits and Electronics
 - ECE 2210: Electronics I
 - ECE 3200: Electronics II
 - ECE 3510: Engineering for Real-Time Systems
 - ECE 3570: Computer Architecture
 - ECE 4550: Digital Signal Processing
 - ECE 5150: Real-Time Computing
 - ECE 5510: Application-Specific Integrated Circuits Design
 - ECE 5550: Advanced Digital Signal Processing
 - ECE 7250: Doctoral Research Seminar
- At Shanghai Jiao Tong Univ: Analog and Digital Integrated Circuits

Publications

H-index by Google Scholar: 22

Journal Articles

Ph.D. Dissertation

1. Dong, L. (Aug. 2002). Adaptive antenna systems for mobile broadband communications. *Ph.D. Dissertation, The University of Texas at Austin.*

Invited Talks and Seminars

1. "Understanding AI and AI Applications," Inaugural Event in the Baylor Faculty Panel Discussion Series, Baylor University, October 26, 2023.
2. "Actor-critic deep reinforcement learning and its application in wireless communications," Data Science Seminar, Baylor University, April 8, 2022.
3. "Deep learning for medical image processing," Physics Colloquium Series, Baylor University, April 2, 2019.
4. "Enhancing positron emission tomography (PET) images with deep learning methods," University of Texas Southwestern Medical Center, Dallas, December 10, 2018.
5. "Cyber-physical systems: Enabling technologies and applications," Electrical & Computer-Baylor Engineering & Research Seminars, February 15, 2011.
6. "Dedicated short-range communication for intelligent transportation system," Department of Electrical and Computer Engineering, Western Michigan University, September 28, 2009.
7. "Wireless sensor networks with energy harvesting technology – A green revolution," School of Microelectronics, Shanghai Jiao Tong University, July 10, 2009.
8. "Pervasive communication and computing: Fusing the digital and physical worlds," School of Microelectronics, Shanghai Jiao Tong University, July 18, 2008.
9. "Cognitive radio: Versatile wireless communication systems," Department of Electrical and Computer Engineering, Western Michigan University, Oct. 15, 2007.
10. "Mobile broadband wireless access from a cross-layer perspective," Department of Computer Science, Wayne State University, Nov. 28, 2006.
11. "Software-defined radio: Reconfigurable wireless technology," Department of Electrical and Computer Engineering, Western Michigan University, September 8, 2005.
12. "Transmit diversity in mobile broadband communication systems," Department of Electrical and Computer Engineering, Western Michigan University, June 17, 2004.
13. "Improving link quality and capacity of wireless systems through transmit diversity," Department of Electrical Engineering, University of Michigan-Ann Arbor, March 19, 2004.

14. "Exploring multiuser diversity for MIMO broadcast channels," Department of Electrical Engineering, Stanford University, August 20, 2003.
15. "Space-time processing for wireless communications," Department of Electrical Engineering, University of Notre Dame, September 12, 2002.
16. "MIMO wireless systems using antenna pattern diversity," Wireless Networking and Communications Seminar, The University of Texas at Austin, April 5, 2002.

Engineering Unleashed Teaching Innovations

1. L. Dong, "From Code to Creativity: Nurturing an Entrepreneurial Mindset in Deep Learning". Engineering Unleashed. March 5, 2023.
2. L. Dong, "The Symphony of Signals: A Journey into Digital Signal Processing". Engineering Unleashed. Sunday, March 5, 2023.
3. L. Dong, "Transmitting Innovation: Infusing the Principles of Communication with an Entrepreneurial Mindset". Engineering Unleashed. Friday, May 12, 2023.
